

Barclay's Song: Move Your Money

Verse 1:

There's a bank on the high street that everyone knows
But have you ever wondered where your money goes?
Barclay takes your money and breaks the rules
Investing in climate-wrecking fossil fuels

Chorus:

Move, move, move your money
Find a greener bank
Cos it just ain't funny
It's easy to do, so do it now,
Take our flyer to find out how

Spoken:

Did you know that Barclays spends
£3 billion on coal power,
£18 billion on fracking?
£43 billion on expanding fossil fuels,
£1 billion on drilling, in the Arctic
£12 billion on off-shore oil & gas
and a massive £108 billion on fossil fuels!
WOW!

Verse 2:

Scrub, scrub, scrub we gotta get it clean,
It's the dirtiest bank we've ever seen
They pretend to be green,
But it just ain't true,
So scrub, scrub, scrub is what we've got to do

Chorus

Verse 3

We need to tell Barclays to stop this crime
And act right now cos we're running out of time
Oil, coal, gas, keep it in the ground
We've got to keep our children safe and sound.
