

## Speak Truth to Power

1. With our friends risking their freedom  
Oh now is the hour  
We stand up, raising our voices  
Speak truth to power  
The climate is changing  
The systems are breaking  
Bearing witness, telling the truth  
We stand in our power
2. With countless lives at risk  
We will not be silent  
Out of love for all of this  
We will not be silent  
The right of the people  
Is to demonstrate in freedom  
In the courtroom and on the streets  
We will not be silent
