

## **O Christmas Tree – CCM/Protest in Harmony version**

O Christmas tree, o Christmas tree,  
Come help protect humanity.  
We're singing to tell Equinor,  
To cease from knocking at our door.  
Stop Rosebank now and let us see  
All types of greener energy  
O Christmas tree from Norway's soil,  
We do not want your dirty oil

O Christmas tree, o Christmas tree,  
We need to live sustainably.  
Come listen to our hopeful sound,  
To keep the oil in the ground.  
Oh politicians green and fair  
You must not grant a licence there  
We join with nature now to say,  
That oil and gas have had their day
