

We Need the Trees – Ami Cooper

Soprano/Alto

We need the trees and the trees need you and me
We are connected symbiotically
They regulate the climate and protect the air we breathe
Oh we need the trees and the trees need you and me

Mycelium roots in the ground below
A network and a tapestry to help nature flow
Animals find all the shade and shelter that they need
Oh we need the trees and the trees need you and me

Tenor

We need the trees and the trees need you and me
We are connected symbiotically
They regulate the climate and protect the air we breathe
Oh we need the trees and the trees need you and me

We need the trees. In the ground below.
We need the trees. To help nature flow.
Animals find all the shade and shelter that they need
Oh we need the trees and the trees need you and me

Bass

We need the trees. The trees need you and me
We need the trees symbiotically.
We need the trees, they protect the air we breathe
We need the trees, the trees. We need the trees.

We need the trees. In the ground below.
We need the trees. To help nature flow.
We need the trees. Shelter that they need.
We need the trees, the trees. We need the trees.
