

Go Green (National Trust)

Structure: 4 bar intro - chorus - verse 1 - chorus - verse 2 - chorus - verse 3 - chorus

Chorus

Go green, go green, go green, go green
Change your bank today because you can
Go green, go green, go green, go green
National Trust please act because you can

Verse 1.

You're planting 20 million trees!
Rewilding land, preserving heath
Thankyou for your work on climate change
You future-proof your properties
So future-proof your money, please
Safeguard all we love
By banking green

Verse 2.

Take money out of fossil fuels
And put it in renewables
Let's fund the things that help us all to thrive
We do not want to name and shame
But you and me are not to blame
Barclays Bank is funding ecocide

Verse 3.

So many of us deeply care
The Earth is for us all to share
We take our future back by banking green
When institutions lead the way
Then fossil fuels have had their day
You can do it,
National Trust - bank green!
