Pull the Plug - Allison Flowers

We're gonna pull the plug
We're gonna pull the plug
We're gonna pull the plug
We don't want AI anymore

We want green grass
We want clean waters
We want healthy minds
For us and for our children

We're gonna pull the plug
We're gonna pull the plug
We're gonna pull the plug
We don't want AI anymore

No more Data Centers

It’s time for regulations,

It’s a dystopian future

More data won’t save us, no not more!

We need green grass,

We need clean waters

We need healthy fields for successful farmers

We’re gonna pull the plug

We’re gonna pull the plug

We’re gonna pull the plug

We don’t want A.I. anymore.
